Rare Spring Extra Specials In Gallon Cans
FLOWERING TREES

3 for \$5.75; 6 for \$10.00. (Crating Charges Included)

BLUE LANCEPOD. (*Lonchocarpus violaceus*). Bermuda's gorgeous blue-flowered tree. Showiest of this genus.

INDIA DILLENIA. (*Dillenia indica*). Beautiful small tree with 7-inch magnolia-like flowers, very fragrant.

BURMA MILLETTIA. (*Millettia ovalifolia*). Quick growing tree bearing clusters of lavender flowers. Related to Wisteria.

COSTA RICAN ALBIZZIA. (*Albizzia adinocephala*). Showy tree to 60 feet, bearing small white flowers in clustered heads.

TASMANIAN EUCRYPHIA. (*Eucryphia billardieri*). Large shrub or small tree with white almond scented flowers 2 inches wide, saucer shaped, filled with pink anthers.

TRIPLARIS. (*Triplaris americana*). Central American tree, dioecious, female flowers purplish red and very showy. (Sold in pairs only).

BRAZIL PELTOPHORUM. (*Peltophorum brasiliense*). Tall, yellow-flowered leguminous evergreen tree.

TALL FIREWHEELTREE. (*Stenocarpus sinuatus*). To 20 feet with attractive glossy oak-like foliage. Beautiful scarlet flowers are rayed like spokes of a wheel.

PUERTO RICAN TRUMPETTREE. (*Tabebuia glomerata*). Splendid tree to 30 feet, covered in February with clusters of bright yellow flowers.

SILVER TRUMPETTREE. (*Tabebuia argentea*). Best known yellow-flowered evergreen of this genus, with silvery leaves.

MOLUCCA ALBIZZIA. (*Albizzia moluccana*). Vast umbrella tree from Malaya, distinguished as one of the quickest growing trees in the world, sometimes 50 feet in 3 years. White flowers inconspicuous.

HONEY BUSH. (*Melianthus major*). Evergreen shrub to 10 feet with very irregular, showy, nectar-bearing, red-brown flowers in clusters a foot long.

Let's Plant More Trees—Beautiful Trees
